William & Morgan Hurd

April 25, 2002, Cathie visited with Morgan and Elaine and he told me that his mother had lost 2 children (twins) after he was born. Then later his mother was pregnant again and she got real sick, so in the dead of winter she was taken from Hill Spring to Cardston to the hospital. She and the baby died there in the hospital. He also said that he was 6 when his mother died and 13 when his father died. He also said that his mother painted pictures, she was a very creative person. She one time put an old record and put it on top of a jar of some kind and then put it in the oven to melt, then turned it up and it made a vase or bowl. She was always a very creative and a happy person. She and her husband liked to tease and have fun. They must have been a happy young family. After both parents died the children were then raised by other family members.
